

PRECISE
HAEMATOLOGY

for undergraduate medical students

Precise Haematology covers the recommended curriculum in a comprehensive manner for MBBS students and is oriented to prepare them to deal with topics commonly asked in professional examinations. This is a perfect book for trainee residents in pathology, medicine and paediatrics for getting an overview of haematology to brush up their subject knowledge, and is also suitable for medical college libraries, doctors appearing for their postgraduate entrance examination, private laboratories and clinical practitioners.

Highlights

- Provides line diagrams, microphotographs, tables, algorithms and laboratory features for easy understanding and better retention
- Includes each topic uniquely, emphasizing the pathogenesis of diseases to help students understand the basis of the disease process and correlate it with respective laboratory features
- Provides 'clinical points' throughout the book to emphasize important points in clinical practice
- Includes a chapter on basic haematology techniques along with viva questions to cover the complete prescribed curriculum of haematology
- Provides 'clinical vignettes' for quick reference and a deep understanding of haematology conditions common in developing countries

Dr Usha Rusia, currently Professor and Head, Department of Pathology, University College of Medical Sciences, Delhi University, Delhi, has 30 years of experience in teaching haematology to undergraduates and postgraduates. She has published over 100 research papers in national and international journals and has contributed several chapters in books and authored a book on laboratory techniques in haematology. An alumnus of Maulana Azad Medical College, Delhi, Dr Rusia has actively been involved in improving the teaching methodology to enhance the learning experience for students.

Dr Meera Sikka, currently Professor in the Department of Pathology, University College of Medical Sciences and Guru Teg Bahadur Hospital, Delhi, has 30 years of teaching experience in haematology to undergraduates and postgraduates. She has more than 75 publications in national and international journals and has contributed chapters to several books.

Dr Renu Saxena, Professor and Head, Department of Haematology, All India Institute of Medical Sciences, New Delhi, is a renowned researcher with commendable contribution to the field of haematology, with more than 300 national and international publications that include research papers, book chapters and books. A Fellow of the National Academy of Medical Sciences (FNAMS) and also of the International Medical Sciences Academy, she has more than 30 years of teaching experience to undergraduates and postgraduates.

This edition is authorized for sale in the Indian sub-continent only.
